1. The proposed drawing correction, filed on 5/29/01 has been approved.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 5-7 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Heider (4,429,342).

See Figures 5-8 and Col. 7, line 55 through Col. 8, line 34 wherein it is disclosed that coil (3) excitation current is controlled based upon the path of the armature per time unit.

4. The Prior Art made of record and not relied upon is considered pertinent to Applicant's disclosure. Nagatani (4,905,985).
5. Applicant's arguments filed 5/29/01 have been fully considered but they are not persuasive. There is nothing in the claim language which helps to distinguish the claimed "switchgear" from that relied upon in the Heider reference. Secondly, the newly cited Nagatani reference clearly uses the terminology "switchgear" within the "printing art".

As far as Heider relying upon "time", the instant claim language recites "drive-specific switching parameters ... including at least one of ... a 'contact path'". Heider utilizes a position sensor which is reasonably interpreted as the drive-specific switching parameter -- 'a contact path'.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
